FINISHING SCHOOL

Abstract Decorating

WITH CHRIS FISHER

1

1 Let your imagination and creativity run riot using a combination of our various decorative finishes! Here we're using Ebonising Lacquer, Gilt Cream and our Special Effects Paints.

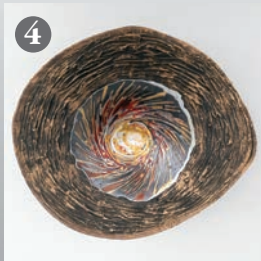

2

2 This piece of timber was textured first and then sprayed black using the Ebonising Lacquer, after which the centre was turned out to create this unusual bowl.

3

3 After allowing the Ebonising Lacquer to dry (to avoid contamination) add Chestnut Products Iridescent Paints and Metallic Paints in an abstract design of your choosing, continuing until you have a pleasing design.

4

4 Soften the harshness of the black rim by applying Gold Gilt Cream sparingly, so that it is only applied to the raised areas of the texturing, adding brightness and colour to the relief.

5

5 A close-up of the final effect, showing how the gold highlights the texturing. The inside of the bowl has been finished using Acrylic Satin Lacquer to protect the paints and give a soft sheen to the piece.

See our YouTube channel for more tips!
