FINISHING SCHOOL

Decorated Hollow Form

WITH GARY LOWE

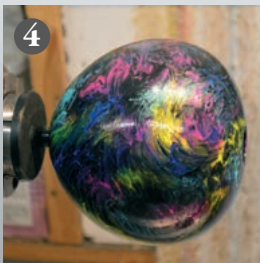

1 Turn your form and seal it with Acrylic Sanding Sealer. Lightly sand back once dry and apply Ebonising Lacquer, taking care to ensure that the entire surface is completely black.

2 Randomly apply your chosen colours of Iridescent Paints using your preferred method; a paintbrush is ideal and makes sure that sufficient paint is available for the next process.

3 Whilst the paint is still wet, cover the whole piece with clingfilm, then move the clingfilm about, smudging the paint to achieve the desired effect.

4 Carefully remove the clingfilm and allow the paint to dry thoroughly before applying the final finish. Using Acrylic Gloss Lacquer will make the colours come to life.

5 Apply up to three coats of lacquer, allowing each on to dry and cutting it back with a fine abrasive before applying the next one. Finally, polish using Burnishing Cream if required to bring up a full gloss, and add a finial to complete the piece.
